ANOTHER ENGAGEMENT

Between American Troops and Insurgent Hordes.

DEWEY'S LATEST DISPATCH

Co Interpreted by Several High Officials of Navy Department.

CASUALTIES OF SUNDAY'S CLASH

Forty Americans Killed in Action and a Score Badly Wounded.

TALE OF BATTLE TERSELY TOLD.

For Twelve Hours a Semi-Circle of Seventeen Miles Fairly Blazed With Shot and Shell—Agoncillo Establishes Headquarters at Montreal.

Washington, Feb. 6.—Admiral Dewey cabled the navy department as follows: "Insurgents have attacked Manila. The Boston left for Iloilo to relieve the Baltimore, which will return to Manila. Two men wounded Sunday on board Monadnock, one seriously.

This dispatch is taken by the navy to indicate a continuation of the first day's fighting at Manila, or else a renewal of the attack, as Dewey's first dispatch stated positively that there was no casualties in the navy.

Army officers believe Dewey's latest dispatch a belated cablegram, while naval officers believe just the opposite, and that it refers to a second engagement.

The news of Agoncillo's flight to Montreal was received with interest at the war department, but no one in that department would venture any comment upon it or speculate as to what action, if any, would be taken by

this government in the case of the Filipino representative. It is thought, however, but little importance attaches to his presence in Canada, much less so in fact than to the information bureau established there last summer by the ex-Spanish minister, Senor Polo y Barnabe.

STORY OF THE BATTLE.

Semi-Circle of Seventeen Miles Fairly Blazed With Shot and Shell.

Manilla, Feb. 6.—Owing to the area embraced in the scene of Sunday's engagement, a semi-circle of fully 17 miles, details regarding fighting have been extremely difficult to obtain. So far as can be gathered the brush commenced at 8:45 on Saturday evening by the firing of a Nebraska sentry at Santa Mesa upon Filipinos, who were deliberately crossing the line after repeated warnings, with the evident purpose of drawing our fire.

The first shot from the American sentry was evidently accepted as a pre-arranged signal, for it was followed almost immediately by a terrific fusillade along the entire Filipino line on the north side of the Pasig river. The American outposts returned the fire with such vigor that the Filipino fire was checked until the arrival of reinforcements. All the troops in the vicinity were hurried out, and the Filipinos ceased firing for half an hour, while their own reinforcements came up.

At 10 o'clock the fighting was resumed, the American firing line consisting of the Third artillery, the Kansas and Montana regiments, the Minnesota regiment, the Pennsylvanians, the Nebraskans, the Utah battery, the Idahos, the Washingtons, the Californians, the Fourth cavalry, North Dakota volunteers, Sixth artillery and Fourteenth infantry.

The Filipinos concentrated their forces at three points, Calacalan, Santa Mesa and Galingatan, and maintained

an intermittent fusillade for some hours. This brought artillery into action at Galingatan, but only one gun annoyed the Americans to any appreciable extent.

The Third artillery silenced the Galingatan battery by firing two guns simultaneously, which was followed immediately by volleys from the infantry.

About midnight there was a lull in the firing, lasting until 3:45 a. m., when the whole Filipino line reopened fire. The Americans poured a terrific fire line into the darkness for 20 minutes, and then there was another lull until daylight, when the Americans generally advanced. During the night, in response to Rear Admiral Dewey's signals flashed across from Cavite, the United States cruiser Charleston and the gunboat Concord, stationed at Malabon, poured a deadly fire from their secondary battery into the Filipino trenches at Calacalan.

At daylight the double turret sea-going monitor Monadnock opened fire off Lialate and kept shelling the Filipinos' left flank, while the other vessels shelled the enemy's right flank for several hours.

By 10 o'clock the Americans had apparently completely routed the enemy and had taken the villages of Palawpong, Santa Mesa, Pao, Santana, San Pedro, Macorte, Pandocan and Pasai, had destroyed hundreds of native huts and had secured possession of the water and main reservoir. Many rebels were killed.

BLAMES THE AMERICANS.

Agoncillo Arrives at Montreal and Proceeds to Unbosom Himself.

Montreal, Feb. 6.—Agoncillo, the Filipino representative, arrived Monday in Montreal. Accompanied by his secretary, Senor Martia, he drove to the Windsor.

"I heard about the battle after leaving New York," Agoncillo said, "and it surprised me greatly. I had no idea that affairs at Manila had reached such a critical stage; in fact, I considered

AGONCILLO.

ered that they were perhaps getting a trifle better, but I had no news from the Philippines."

"And you expect to receive it here?" he was asked.

"I do. The Washington authorities would not allow me to receive any cable messages. There is a censor at Manila, and the use of codes is forbidden. I was completely in the dark, save for the advices I received by mail and what I learned from the newspapers. Therefore, we have come to Montreal, where we will be enabled to receive the news we desire by cable. When I receive it, I expect to return to Washington, and to continue my efforts to fulfill my mission to the United States.

"As to the affair of Saturday and Sunday, I do not regard it as ending the usefulness of my mission. From the bulletins received by the officials in Washington, I gather that the fighting began suddenly and unexpectedly. I think that the Filipinos were goaded to come into it by some act of the Americans. For months they have been doing their best to drive the Filipinos into revolt. General Otis has sent men to search private residences, and the property of our people has been turned inside out and the search instituted by his orders. Acts like this have kept the spirit of the Filipinos at fever heat and made such affairs as that of Saturday and Sunday possible."

Agoncillo and his secretary are being watched by two strangers, supposed to be United States secret service men. One of them shadowed Martia, the secretary, who went out for a drive, and the other remained in the hotel to watch Agoncillo, who busied himself with tearing up a number of documents.

Dewey Against Annexation

Hongkong, Feb. 6.—The following dispatch was received here from Manila before the outbreak there occurred: Rear Admiral Dewey said the Monadnock is guarding one end of the city, the Monterey the other and the army protects the rear. He added that he had sent word to Aguinaldo that if, accidentally, the insurgents entered Manila, he would reduce it to mortar and stone. The insurgents are an armed mob, incapable of government, and are angry with Admiral Dewey for seizing vessels flying Filipino flags. The admiral is not favorable to annexation, but he believes in the gradual withdrawal of United States troops.

Predicts American Defeat.

Madrid, Feb. 6.—The Imparcial says: "The attack on Manila was the judgment of God upon the Americans who, after despoiling Spain, are beginning to feel the consequences. If only the Spanish prisoners had been released we should regard the affair with complete indifference. The insurgents number 80,000 men, of which 7,000 are armed with Mausers and 10,000 are armed with Remingtons. If they continue the struggle the Americans will be driven out of the Philippine islands."

British Views.

London, Feb. 6.—The newspapers here agree that the Filipinos have made a fatal error. They are convinced the Americans will not allow the trouble to influence their policy. The Pall Mall Gazette says: "Aguinaldo and his merry men have not displayed a clear conception of the American character. We take it for granted that there will be no looking back now until America has plowed a Philippine furrow right through, although the job is likely to be long and troublesome."

About Ready to Sail.

New York, Feb. 6.—The work of preparing the army transport Sheridan for her long voyage to the Philippines goes on with unabated vigor. She finished coaling and also received a good part of her ballast. It is said that the date for sailing is Feb. 14. The troops that the ship will carry are the Twelfth infantry, which is now at Fort Jefferson barracks, St. Louis, and the Third battalion of the Seventeenth infantry, which is at Columbus, O.

Mosquito Bars For Troops.

Reading, Pa., Feb. 6.—A Philadelphia company has placed a large order with a Reading iron plant for the manufacture of mosquito bars. The Philadelphia concern has a contract with the government to provide the bars, which will be used to support nettings for the soldiers doing garrison duty in the new island possessions. The orders for the bars are placed in 17,000 lots at a time.

Detained at the Capital.

Washington, Feb. 6.—Owing to the serious illness of Dr. Losado, the remainder of the Philippine junta will be compelled to remain in the city some days longer. Messrs. Ralston and Sidons, counsel for the junta, have withdrawn.

Filipino's Side of It.

Hongkong, Feb. 6.—The Filipino junta here has issued a statement setting forth that the fighting at Manila was only an outpost skirmish designed to influence the vote in the United States senate on the peace treaty.

Dispatch From Otis.

New York, Feb. 6.—The following dispatch was received from General Otis, commander at Manila: "We control situation. Engagement, which continued for 24 hours, was satisfactory."

RESULT OF A FEUD

Genuine Battle Fought at Chicago Between Two Sets of Young Men.

Chicago, Feb. 6.—A feud of long standing that has existed between two sets of young men reached a climax at midnight, and a genuine battle was fought on West Fullerton avenue, near High street. Nearly half a hundred men took part in the affair, and knives and clubs were freely used.

Six men were badly injured and a dozen others received slight wounds. The seriously injured: Frank Semmerling, stabbed in back, condition is very serious; John Bush, John Rehm, August Sanker, Victor Gunkol, John Runkoski. The police made a number of arrests.

Losses in Sheep Stock.

Lincoln, Neb., Feb. 6.—The state board of agriculture has begun to receive reports touching the stock losses in the state as a result of the late severe weather. The weather has been unprecedentedly severe for the past three weeks, concluding with a howling blizzard. During this period thousands of sheep perished of the cold in all parts of the state. These sheep were principally bands that had been brought in from the south during the past summer for feeding purposes, and had not become inured to the rigors of the Nebraska weather.

Murdered by Chinese Savages.

Seattle, Wash., Feb. 6.—Advices from the Orient state that a Canadian woman who joined the China inland mission as the wife of Rynhart, a Belgian missionary, has just reached Tachieuu with a terrible story of cruelty and suffering among the fierce mountain tribes of Tibet. Her husband was brutally murdered after he had almost died from exhaustion. She was chased like a hunted deer for two months through the mountains on the border of China and Tibet.

In a Blizzard's Embrace.

Austin, Feb. 6.—Central and west Texas is being visited by the coldest weather of the season. The blizzard has a temperature so low that the rain freezes as it falls, covering everything with ice. Reports from the west are to the effect that big herds of cattle on the ranges have all scattered to get in among the foothills for protection, and it is feared that many of the herds will turn up with heavy losses, as the weather is the severest of the season.

Winery Consumed.

Cloverdale, Cal., Feb. 6.—The Moulton Hill winery, the property of L. Landsberger of San Francisco, has been destroyed by fire, together with 200,000 gallons of wine. The site of the plant is about one mile from this city. The loss is estimated at between \$75,000 and \$100,000. Partly covered by insurance.

Victim of Influenza.

Berlin, Feb. 6.—Influenza is epidemic here and many of the public officials are suffering from the disease, including Baron Von Buelow, the minister of foreign affairs. The chief state attorney, Von Mooss, is dead. Prince George of Prussia is recovering. Half of the guests invited to the last court ball were unable to attend owing to the fact that they were suffering from influenza.

New Liberal Leader.

Colorado Springs, Feb. 6.—James N. Holmes, a prospector, has been found frozen on Pike's Peak. He got caught in the blizzard Friday night and a searching party has found his body.

Census Bill Goes Through.

Washington, Feb. 6.—The census bill passed the house. Vote 147 to 42.

RATIFIED THE TREATY.

Its Senatorial Friends Win Out by a Small Margin.

HAD A MAJORITY OF THREE.

Opponents Seeking to Have an Interpretation Placed Upon It by the Adoption of Resolutions—Analysis of the Vote Cast.

Washington, Feb. 6.—When the senate convened, Senator Allen of Nebraska made a speech denying published statements that he would attack Senator Gorman for using the peace treaty as a means to defeat Bryan. He said he did not keep Mr. Bryan's conscience, and paid a warm tribute to that leader. He (Allen) was opposed to expansion, but our duty now was to ratify the treaty. There was weeping in Nebraska, and he condemned the Filipinos as bloodthirsty savages, who had precipitated an attack on us.

Mr. Gorman spoke next, and replied particularly to Mr. Wolcott's Saturday speech, saying that it was such an attack as he did not expect. He said that three elections he had obtained were the height of his ambition. He repudiated the idea that he had taken position for personal advantage. If such had been the case, he could have secured more from his party when "Thrill" would follow fawning." He said he believed the battle in Manila was but the beginning, and if the treaty was ratified war would follow for years, costing lives and millions upon millions in money.

What a spectacle it has been, said Mr. Gorman, to see the president of the United States, kindly, gentle and partisan as he is, in his swing through the south, giving expression to the sentiment to the Confederate dead, which was so grand, and then asking for 100,000 men to keep their descendants in subjection.

Treaty Ratified.

At the conclusion of Mr. Gorman's speech, Mr. Davis moved an executive session. Mr. Wolcott wanted five minutes to reply to Mr. Gorman, but Mr. Davis would not yield. The senate then went into executive session for final consideration of the peace treaty.

In the open senate, Mr. McEnery (La.) offered a resolution declaring that, by ratification of the treaty, it is not intended to make citizens of the inhabitants of the Philippines, nor to annex the islands permanently, but to hold them until the islands are prepared for self-government.

Mr. Vest offered an amendment in connection with the Philippine clause of the treaty, which was defeated 30 to 53.

Then came the vote of ratification of the treaty. Its friends carried the day by a small margin, the Paris document being ratified by a majority of three.

Those who voted against ratification were: Senators Bacon, Bate, Caffery, Chilton, Cockrell, Daniel, Gorman, Hale, Helfield, Hoar, Jones (Ark.), Mallory, Martin, Mills, Mitchell, Money, Murphy, Pasco, Pettigrew, Rawlins, Roach, Smith, Tillman, Turley, Turner, Vest; 27.

After the treaty was ratified the senate doors were opened, and on motion of Mr. Aldrich the senate took up the resolution introduced by Mr. McEnery.

Mr. Hoar offered two amendments similar in character, which were also laid on the table; 46 to 30.

Trouble For American Chinese.

Omaha, Feb. 6.—There is trouble in sight for all the Chinese in the United States, resulting from the total disappearance of the Chinese who were admitted to the country in order to take part in the Transmississippi exposition. Inspector James Stone of the government service is in Omaha investigating the situation. He says the government has determined as the only means of locating the Omaha fugitives to run up the Chinese in every city of the country, and those that can not produce their certificates of residence will be deported.

A Tempestuous Passage.

New York, Feb. 6.—The Cunard line steamer Lucania arrived from Liverpool and Queenstown after a most tempestuous passage, lasting seven days and 19 hours. From the time the Lucania left the Irish coast until she arrived on the American coast she experienced a succession of terrific gales and high seas. On Feb. 2 the wind blew with hurricane force accompanied by heavy snow squalls and mountainous seas. The Lucania rode the storm in splendid shape and received no damage.

A NATURAL RESULT.

Laboring men who heard much about the "labor crusher" in 1896 and 1897 are just beginning to feel the evil of his influence in the affairs of the Nation, says the Mansfield Shield. "Hanna's administration," continues the Shield, "is being distinguished for the crystallizing of aggregated wealth into combinations called trusts, the natural consequence of which is a closing of the smaller concerns 'absorbed' or the ruination of the smaller concerns which attempt to continue in honest and legitimate business, and thus contraction of the demand for labor must have its consequent effect upon the price of labor, the reduction of wages both in the trust shops and in the independent factories which strive to compete with the trust concerns. This latter effect is just beginning to show its ugly head above the surface. It is visible here in Mansfield; it has come to the surface in Zanesville; it was accomplished in Cleveland, the home of the laboring man's arch-enemy; the whole industrial structure is rocking in the balance through the plotting of the magnates for lower wages and larger profits. So much for the first two years of Hanna's evil clutch upon the throat of Uncle Sam. The 'labor crusher' is exultant in his victory."

The account of Mr. C. Burgess Taylor for making the county assessment was presented in the County Court, allowed and ordered certified to the State Auditor for payment.

CORPORAL GEORGE WORMALD, of Bellevue, a member of the Sixth volunteers now stationed at Porto Rico, writes that the regiment will soon be mustered out. He expects to arrive home some time this week.

MR. JOHN D. WALKER, of the Blue Grass Tobacco Company of Lexington, has bought out the interest of Messrs. J. R. and W. M. Thomas for \$17,500, thus making Mr. Walker owner of the entire stock, which is valued at something over \$30,000. He formerly lived at Brooksville.

At Vanceburg Saturday M. K. Marcus, a wealthy clothier, went to jail rather than pay a judgment for \$100 obtained against him by Ed. Foster, a drayman. Marcus had, without getting into full possession of the facts, accused Foster wrongfully of stealing a coat, for which the latter sued the former for \$1,000 damages. Marcus will stay in jail ten days. The judgment could not be collected by civil process because it is alleged his business is conducted in his wife's name.

THE Louisville Courier-Journal is in receipt of two letters from members of the Fourth Kentucky Infantry at Anniston, Ala., telling of a disgraceful orgy within the camp limits by a number of the commissioned officers. A band of drunken officers is reported to have taken possession of the camp on the night of January 31, and to have been guilty of conduct that, according to the correspondents, merits a general court martial investigation, which one correspondent believes to be merited to relieve the innocent ones from the odium. The letters of the two correspondents, each written without the knowledge of the other, agree in all essential details.

THE infant son of Mr. and Mrs. Charles Brittain, of Lawrence Creek, died Sunday and was buried Monday afternoon.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at J. Jas. Wood's drug store. Regular size 50c. and \$1. Guaranteed or price refunded.

PILED UP A BAD WRECK

Fast Express Plunges Into a Standing Passenger Train.

EIGHT KILLED OR INJURED.

Dire Consequences Attend the Failure of the Crew of a Mail Train to Slow Up While Approaching a Railway Siding.

Imlay City, Mich., Feb. 6.—Chicago and Grand Trunk passenger train No. 1, westbound, plunged full speed into passenger train No. 6, eastbound, while the latter was standing at the station here. The results of the crash were fatal and otherwise disastrous.

The following were killed: Engineer Fairbanks of the westbound train, Edward Reid of Lennox, Mich., mail clerk of westbound train; Thomas Stuart of Lansing, mail clerk, east bound train. The injured: Engineer Mahan of the eastbound train, several ribs broken; Mail Clerk Charles Stambaugh of Davison, leg broken; Mr. Burns of Lapeer, passenger on eastbound train, leg broken; Ripley White of Lapeer, passenger, eastbound train, ankle broken; Mr. English, Strathroy, Ont., bruised.

Both trains were fast mail trains. The eastbound was standing near the station waiting for the coming train to pass it according to custom. The latter instead of slackening and stopping crashed into No. 6. The employees of the westbound train and the passengers of the eastbound suffered the most. The locomotives were both badly wrecked and the mail cars are jammed across the tracks. All the passengers coaches remain on the tracks. Why the westbound train failed to stop is unknown.

The two fast trains ordinarily passed each other at Lapeer, 15 miles west of this place, but the orders in this case, the eastbound train being behind time, were to pass at Imlay. There was apparently confusion of orders somewhere. Engineer Thomas Fairchild of No. 1 was killed by being struck by a mail car as he was jumping from his cab. His firemen, who remained in the cab is uninjured.

It is thought that Engineer Fairbanks of train No. 1, which should have stopped before reaching the switch, mistook a freight train on a siding for the passenger train, and did not slacken speed. The indications are that train No. 1 was responsible for the accident.

AGAINST WHISKY IN WASHINGTON.

[For the DAILY BULLETIN.]

Licensed to make the strong man weak;
Licensed to lay the wise man low;
Licensed a wife's fond heart to break,
And make her children's tears to flow.

Licensed to do thy neighbor harm;
Licensed to kindle hate and strife;
Licensed to nerve the robber's arm;
Licensed to whet the murderer's knife.

Licensed thy neighbor's phrase to drain,
And rob him of his very last;
Licensed to heat the feverish brain,
Till madness crown thy words at last.

Licensed like spider and the fly
To spread thy nets for men thy prey
To mock his struggles, suck him dry,
Then cast the worthless hulk away.

Licensed where peace and quiet dwell,
To bring disease and want and woe;
Licensed to make this world a hell,
And fit man for a hell below.

CURE FOR APPENDICITIS.

Physicians Say it is Amenable to Proper Medical Treatment—Use of the Knife Not Necessary.

[Dr. Hutton in the Medical Record.]

This paper is a protest against the current surgical theory and practice that all cases of appendicitis must be split open. This protest is based on twenty years' experience as physician and surgeon, including service in three hospitals, one western fort, five years in mining surgery, five years in railroad surgery, twelve years in general practice on the Central Western plateau of Minnesota and four years in this great city, which—unique in the speed of its rise, unique in the snap of its people, unique in the vast tributary territory and population—is decreed by the fates to be the hub of the earth in the near future.

My experience is that appendicitis and all other bellyaches for which men now operate are promptly amenable to proper medical treatment. I can recall 100 cases treated with symptoms of this malady—or of typhilitis or perityphilitis, as it was formerly called—but I have never yet met a case of it in which I felt it was my duty to cut or which terminated fatally. Influenced by the prevailing craze, to cut, time and again in coming to new cases of this kind I have thought: "Now, sir, your time has come; in this case you must cut." But, presto! simple medical treatment again prevailed. Later on I shall cite other unimpeachable practitioners who share my views that medical treatment avails in this malady, one showing forty-nine out of fifty-one cases successfully treated—being more than 96 per cent.

My treatment for appendicitis is free calomel-and-soda purgation, supplemented by a saline if action is too slow.

WASHINGTON.

The Stahl-Belfry nuptials of January 31st followed by feasting and rejoicing have heretofore been mentioned. That day and night cannot be soon forgotten by those who were there. Dancing began and the thrill of delight was seen in each young lady's and gentleman's eye. The grand march was beautiful to behold. At 12 o'clock, fruits, candies, cakes and lemonade were served. SHORTAGE IN CORN.

Estimated at Over 200,000 Bushels—A Chicago Firm Says Better Prices Will Prevail.

A Chicago commission firm figures an immense shortage in the last corn crop and there seems to be good prices ahead for the grain.

The shortage of corn supplies for '99, as compared with established consumption of '98, is 217,000,000 bushels. In other words, unless there is a decrease instead of the expected increase in our home consumption, together with a most improbable decrease in our export demand, on the basis of our monthly consumption for the past twelve months, there will be an actual shortage in our corn supply of 217,000,000 bushels, which will have to be met by the substitution of some other feeding stuff for corn, a substitution that can only be brought about by an advance in corn values that will force such a substitution.

But these figures do not tell the whole story. A year ago the visible supply of corn was 42,000,000 bushels, against 22,000,000 bushels to-day, showing a shortage in our immediate available supplies of 20,000,000 bushels. A year ago every private elevator in Chicago and elsewhere was full to overflowing with corn. To-day they are practically empty, these stocks being at least 8,000,000 to 10,000,000 bushels less than last year.

Mr. E. H. Thomas continues seriously ill at his home in Clifton.
